

Research Assistant Fellowship Openings for new Ph.D. candidates at the Virginia Commonwealth University, USA

I have two openings as a research assistant fellowship starting from next couple semesters, i.e. Fall08 or Spring09 for seeking a Ph.D. degree in the Department of Electrical and Computer Engineering at the Virginia Commonwealth University (VCU).

http://en.wikipedia.org/wiki/Virginia_Commonwealth_University

I am moving from the University of Vermont to VCU, and will launch a new research lab, called Intelligent Sensory Lab at VCU shortly. My research fields include Computer Vision, Robotics, and Human-Computer Interaction. The recent projects are listed in the following websites:

<http://www.uvm.edu/~ymotai>

<http://www.cems.uvm.edu/~medialab>

The desired qualifications for the candidates include frequent English and strong Math capabilities in engineering and sciences. I prefer the candidates who have (or will shortly complete) M.S degree, or transfer from another Ph.D. program.

Please feel free to email me your comprehensive resume if you consider applying Ph.D. programs in the US.

Yuichi Motai, Ph.D. Assistant Professor
Department of Electrical and Computer Engineering
Virginia Commonwealth University
